1992 EGN started in Denmark. The founder, then head of Finance, got responsibility of IT and reached out to similar function heads to learn more.

2017 I started EGN Thailand - first with focus on Top Executive Leaders, followed by Top HR Leaders.

2018 saw 15 events with 304 participants and 3 peer groups with members from 21 nationalities and 41 different companies from 31 industries (out of 147 [98])

2019 roadmap is 25+ events, 5-6 peer groups, 25+ nationalities and 50+ industries

# The peer group

- A group consists of 20 close matched peers
- An EGN educated person is chairing and facilitating each group
- Online global platform for 24/7 knowledge sharing for all members
- 6 meetings annually at convenient location – EGN facilitate everything
- The Agenda is set by members
- EGN ensures the right expert speakers on the chosen themes

# What we expect of you...

A strong network builds on mutual **engagement** from the members. Our shared ambition is to **make each other better** - every day.

Therefore, we expect of you to:

1. dare to **be personal** – not necessarily private
2. **be open, honest and trustful**
3. **be accessible** for the peer group and **prioritise** the group meetings.
