

Planet, People, Profit

The logo graphic consists of a teal square with rounded corners. In the top right corner, there are three concentric, light teal circular lines that form a partial circle. Below this graphic, the text 'CELEMI Sustainability™' is written in white, bold, sans-serif font.

CELEMI
Sustainability™

CELEMI Sustainability™ is a sustainability simulation that helps teams move towards responsible business mindsetting and practices by exploring successful methods to balance profit, people, and planet.

The simulation tackles some pressing challenges that affects the sustainability of companies when it comes to operations, supply chain ecosystem, and expectations of stakeholders.

Our sustainability simulation guides and enlightens participants in navigating the complexities of sustainable business practices. In the journey of sustainability, we are all in this together, one step and one intentional action at a time.

In this meeting, we'll offer a window to CELEMI Sustainability™.
